

PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1993) 49, 975-988
© Longman Group UK Ltd 1993

Subject Index to Volume 48 and 49

The publishers would like to point out that *Prostaglandins Leukotrienes and Essential Fatty Acids* Volume 48 includes pages 1-482; and Volume 49 includes pages 483-992. From 1994 each volume will commence with page 1.

A

Acetylcholine

- effect of endothelium removal on basal and muscarinic cholinergic stimulated rat mesenteric vascular bed prostanoid synthesis, 373
- pharmacological model for airway hypersensitivity produced by propranolol and reserpine in guinea-pigs, 447

Adenylate cyclase

- bimodal regulation of adenylate cyclase by prostaglandin E_2 receptors in porcine ciliary epithelium, 765
- cancer cachexia: interaction between eicosapentaenoic acid and inhibitory guanine nucleotide-regulatory protein, 105
- modulation by sex hormones of the membranous transducing system regulating fatty acid mobilization in adipose tissue, 91
- protein kinase A activators inhibit agonist induced prostaglandin production in human amnion, 355

Adipose tissue

- cancer cachexia: interaction between eicosapentaenoic acid and inhibitory guanine nucleotide-regulatory protein, 105
- modulation by sex hormones of the membranous transducing system regulating fatty acid mobilization in adipose tissue, 91
- regulation of gene expression by fatty acids in the adipose cell, 89

Adrenal gland(s): fatty acids may regulate aldosterone secretion and mediate some of insulin's effects on blood pressure, 43

Age: sodium loading and renal prostaglandins in old rats, 815

Airway

- effects of cysteinyl leukotriene antagonist ONO-1078 on antigen-induced responses in allergic sheep, 233
- effects of new leukotriene receptor antagonist ONO-1078 on human bronchial smooth muscle in vitro, 241
- effects of novel thromboxane A_2 receptor antagonist S-1452 on antigen-induced bronchoconstriction and airway hyperresponsiveness in guinea-pigs, 343
- importance of secondary thromboxane A_2 release in mediating endothelin-1-induced bronchoconstriction and vasopressin in the guinea-pig, 261
- pharmacological model for airway hypersensitivity produced by propranolol and reserpine in guinea-pigs, 447
- role of leukotrienes and platelet-activating factor in allergic bronchoconstriction and their interactions in guinea-pig airway in vivo, 579

Ajoene: effects of a garlic-derived principle on aggregation and arachidonic acid metabolism in human blood platelets, 587

Alcohol

- effect of chronic ethanol consumption on the spontaneous contractions prostaglandin production triglycerides and glucose metabolism of uterine strips isolated from pregnant rats and in embryos, 495

Type A behaviour and alcohol consumption: effects on resting and post-exercise bleeding time thromboxane and prostacyclin metabolites, 143

Aldosterone: fatty acids may regulate aldosterone secretion and mediate some of insulin's effects on blood pressure, 43

Allergic reactions

- effects of cysteinyl leukotriene antagonist ONO-1078 on antigen-induced responses in allergic sheep, 233
- effects of new leukotriene receptor antagonist ONO-1078 on human bronchial smooth muscle in vitro, 241
- effects of novel thromboxane A_2 receptor antagonist S-1452 on antigen-induced bronchoconstriction and airway hyperresponsiveness in guinea-pigs, 343
- pharmacological model for airway hypersensitivity produced by propranolol and reserpine in guinea-pigs, 447
- purification of human blood basophils and leukotriene C_4 generation following calcium ionophore stimulation, 783
- role of eicosanoids in the pathogenesis of atopic dermatitis, 409
- role of leukotrienes and platelet-activating factor in allergic bronchoconstriction and their interactions in guinea-pig airway in vivo, 579

Alpha-linolenic acid: function of dietary polyunsaturated fatty acids in the nervous system, 5

Alveolar macrophages: comparison of hepatic splenic peritoneal and alveolar macrophages with respect to prostaglandin E_2 thromboxane B_2 production and antibody-dependent cellular cytotoxicity function, 149

Amnion

- actions of interleukin-2 on amnion prostaglandin biosynthesis, 959
- epidermal growth factor and transforming growth factor- α enhance the interleukin-1- and tumour necrosis factor-stimulated prostaglandin E_2 production and the IL-1 specific binding on amnion cells, 923
- protein kinase A activators inhibit agonist induced prostaglandin production in human amnion, 355

Angina pectoris therapy: pilot trial to determine the efficacy of low dose fish oil in geriatric patients, 687

Angiotensin converting enzyme (ACE)

- ACE activity in cultured porcine pulmonary artery endothelial cells treated with paraquat, 291
- comparison of the potency of various serotypes of *E. coli* lipopolysaccharides in stimulating prostaglandin I_2 production and suppressing ACE activity in cultured human umbilical vein endothelial cells, 955

Antibody-dependent cellular cytotoxicity: comparison of hepatic splenic peritoneal and alveolar macrophages, 149

Antiphospholipid antibodies: the lupus anticoagulant and eicosanoids, 483

- Apoptosis induction in blood cells from a patient with chronic myelogenous leukaemia by selective 5-lipoxygenase inhibitor SC41661A, 323
- Arachidonic acid (AA)
- antiplatelet components isolated from oil of cloves and, 363
 - AA and cell signalling in the ovary and placenta, 79
 - AA inhibits electrically-induced intracellular calcium transients in neonatal rat cardiomyocytes, 837
 - AA release and inositol lipid metabolism in response to bradykinin and related peptides in human endometrial cells in vitro, 253
 - AA supplementation dose-dependently reverses the effects of a butter-enriched diet in rats, 247
 - distribution of unsaturated fatty acids in phospholipids of arteries from nonpregnant pregnant and fetal sheep, 907
 - effect of ascorbate on essential fatty acid composition in B16 melanoma cells, 771
 - effect of chronic ethanol consumption on the spontaneous contractions prostaglandin production triglycerides and glucose metabolism of uterine strips isolated from pregnant rats and in embryos, 495
 - effects of garlic-derived principle ajoene on aggregation and AA metabolism in human blood platelets, 587
 - effects of interleukin-1 α on AA metabolism in human osteosarcoma osteoblastic cells, 521
 - fatty acids as antiinflammatory and immunomodulatory agents, 57
 - hyperoxia decreases cyclooxygenase activity in endothelial cells, 455
 - increased thromboxane A₂ production at primary tumour site in metastasizing squamous cell carcinoma of the larynx, 527
 - interactions between arachidonic and eicosapentaenoic acids during their dioxygenase-dependent peroxidation, 23
 - and interleukin-6 release from rat peritoneal macrophages in vitro: evidence for a prostacyclin-dependent mechanism, 915
 - isolation identification and synthesis of an endogenous arachidonic amide that inhibits calcium channel antagonist 1,4-dihydropyridine binding, 429
 - modulation of lipid derived mediators by polyunsaturated fatty acids, 51
 - oxy-radicals lipid peroxides and essential fatty acids in patients with glomerular disorders, 603
 - prostacyclin release in experimental diabetes: effects of evening primrose oil, 699
 - prostaglandin biosynthesis in the microcirculation: regulation by endothelial and non-endothelial factors, 723
 - prostaglandin F_{2 α} synthesis in the hippocampal mossy fibre synaptosomal preparation and, 127
 - regulation of gene expression by fatty acids in the adipose cell, 89
 - relationship between factors influencing Na⁺-K⁺-ATPase activity and eicosanoid production from ¹⁴C-AA in spayed rat uteri, 273
 - renal infusion of, effect on water excretion of, 297 role of fatty acids in signal transduction: modulators and messengers, 117
- Ascorbate, effect on essential fatty acid composition in B16 melanoma cells of, 771
- Aspirin
- effect of policosanol on cerebral ischaemia in Mongolian gerbils: role of prostacyclin and thromboxane A₂, 695
 - platelet-activating factor-induced death in NMRI mice and, 265
 - regular and enteric-coated, effects on bleeding time thromboxane and prostacyclin of, 515
- Asthma
- effects of cysteinyl leukotriene antagonist ONO-1078 on antigen-induced responses in allergic sheep, 233
 - effects of new leukotriene receptor antagonist ONO-1078 on human bronchial smooth muscle in vitro, 241
 - effects of novel thromboxane A₂ receptor antagonist S-1452 on antigen-induced bronchoconstriction and airway hyperresponsiveness in guinea-pigs, 343
 - pharmacological model for airway hypersensitivity produced by propranolol and reserpine in guinea-pigs, 447
 - role of leukotrienes and platelet-activating factor in allergic bronchoconstriction and their interactions in guinea-pig airway in vivo, 579
- Atherosclerosis
- eicosapentaenoic acid and, 337
 - eicosapentaenoic acid abolishes the proatherogenic effects of cholesterol: effects on migration of bovine smooth muscle and endothelial cells in vitro, 463
 - prostaglandin biosynthesis in the microcirculation: regulation by endothelial and non-endothelial factors, 723
 - putative role of dietary omega-3 polyunsaturated fatty acids in oxidative modification of low density lipoprotein, 397
- Atlantic salmon (*Salmo salar*), sunflower linseed and fish oils affect phospholipid fatty acid composition development of cardiac lesions phospholipase activity and eicosanoid production in, 665
- Atopic dermatitis, role of eicosanoids in pathogenesis of, 409

B

- Basophils: purification from human blood and leukotriene C₄ generation following calcium ionophore stimulation, 783
- Benzo(a)pyrene, effect on prostaglandin E₂ receptor expression in hamster buccal pouch of, 821
- Blastocysts, mouse, influence of indomethacin on hatching of, 683
- Blood cells: role of leukotrienes in the regulation of proliferation of normal and leukaemic haemopoietic cells, 123
- Blood pressure
- comparative study of diets enriched with evening primrose black-currant borage or fungal oils on blood pressure and pressor responses in spontaneously hypertensive rats, 809
 - epidural blood flow during prostaglandin E₁ or trimethaphan-induced hypotension, 873
 - fatty acids may regulate aldosterone secretion and mediate some of insulin's effects on blood pressure, 43
 - U 46619 induces different blood pressure effects in male and female spontaneously hypertensive rats, 469
- Bone
- effects of glucocorticoid on signalling by prostaglandin E₂ in osteoblast-like cells, 867
 - effects of interleukin-1 α on arachidonic acid metabolism in human osteosarcoma osteoblastic cells, 521
 - modulation of prostaglandin E₂-induced Ca²⁺ influx by steroid hormones in osteoblast-like cells, 711
- Book review: Polyunsaturated Fatty Acids in Human Nutrition, 201
- Bradykinin: arachidonic acid release and inositol lipid metabolism in response to bradykinin and related peptides in human endometrial cells in vitro, 253
- Brain
- effect of nordihydroguaiaretic acid on leukotriene C₄ and prostaglandin E₂ production following different reperfusion periods in rat brain after forebrain ischaemia correlated with morphological changes, 633
 - effect of policosanol on cerebral ischaemia in Mongolian gerbils: role of prostacyclin and thromboxane A₂, 695
 - function of dietary polyunsaturated fatty acids in the nervous system, 5
 - isolation identification and synthesis of an endogenous arachidonic amide that inhibits calcium channel antagonist 1,4-dihydropyridine binding, 429
 - prostaglandin D₂ and endothelin-1 induce prostanoid production in capillary endothelium of human brain, 789
 - prostaglandin F_{2 α} synthesis in the hippocampal mossy fibre synaptosomal preparation, 127, 877
 - thromboxane receptor antagonism and synthase inhibition in cerebral ischaemia, 211
- Breast
- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
 - cancer of
 - plant and marine n-3 fatty acids inhibit experimental metastasis of rat mammary adenocarcinoma cells, 309
 - role of free fatty acids in regulating the tissue availability and synthesis of sex steroids, 111
 - pain, effects of gamma-linolenic acid on, 101
- Bronchoconstriction *see under* Airway

C

- Cachexia, cancer: interaction between eicosapentaenoic acid and inhibitory guanine nucleotide-regulatory protein, 105
- Calcium
- arachidonic acid inhibits electrically-induced intracellular calcium transients in neonatal rat cardiomyocytes, 837

- calcium homeostasis and eicosanoid formation in human platelets, 277
- endogenous prostaglandin E_2 modulates calcium-induced differentiation in human skin keratinocytes, 777
- isolation identification and synthesis of an endogenous arachidonic amide that inhibits calcium channel antagonist 1,4-dihydropyridine binding, 429
- modulation of prostaglandin E_2 -induced Ca^{2+} influx by steroid hormones in osteoblast-like cells, 711
- possible cross-refractoriness between phospholipase A_2 and the calcium ionophore A23187 in the stimulation of uterine prostaglandin production, 327
- prostaglandin $F_{2\alpha}$ synthesis in the hippocampal mossy fibre synaptosomal preparation and, 127, 877
- purification of human blood basophils and leukotriene C_4 generation following calcium ionophore stimulation, 783
- Cancer *see* Tumours
- Cardiovascular disease *see* Heart disease
- Cell(s)
- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
 - cytoplasmic fatty acid binding protein: significance for intracellular transport of fatty acids and putative role on signal transduction pathways, 33
 - effect of 16,16-dimethyl prostaglandin E_2 on proliferation of an intestinal goblet cell line and its synthesis and secretion of mucin glycoproteins, 423
 - endogenous prostaglandin E_2 modulates calcium-induced differentiation in human skin keratinocytes, 777
 - fatty acids as antiinflammatory and immunomodulatory agents, 57
 - free fatty acids as modulators of the steroid hormone message, 63
 - induction of apoptosis in blood cells from a patient with chronic myelogenous leukaemia by selective 5-lipoxygenase inhibitor SC41661A, 323
 - modulation of lipid derived mediators by polyunsaturated fatty acids, 51
 - structural and functional aspects of cytosolic fatty acid-binding proteins, 887
- see also* Membrane(s); Signal transduction
- Cholesterol
- effect of pravastatin on fatty acid profile of low density lipoprotein in patients with hypercholesterolaemia, 155
 - eicosapentaenoic acid abolishes the proatherogenic effects of cholesterol: effects on migration of bovine smooth muscle and endothelial cells in vitro, 463
 - evening primrose oil and fish oil in non-insulin-dependent diabetes, 569
 - lipoproteins from normolipidaemic and dyslipidaemic subjects modify the thromboxane A_2 generation by platelets in clotting human blood, 475
- Chromosomes: enhancement of antineoplastic effect and attenuation of sister chromatid exchanges by prostaglandin E_2 in Ehrlich ascites tumour cells treated with cyclophosphamide in vivo, 707
- Cirrhosis: prostaglandin and portal hypertension, 203
- Cloves: antiplatelet components isolated from oil of cloves, 363
- Complement 5a induces in vivo synthesis of cysteinyl leukotrienes in rats, 331
- Crohn's disease: leukotriene B_4 ω -hydrolase activity in polymorphonuclear leukocytes from patients with inflammatory bowel disease, 489
- Cytokines
- actions of interleukin-2 on amnion prostaglandin biosynthesis, 959
 - arachidonic acid stimulates interleukin-6 release from rat peritoneal macrophages in vitro: evidence for a prostacyclin-dependent mechanism, 915
 - effects of interleukin-1 α on arachidonic acid metabolism in human osteosarcoma osteoblastic cells, 521
 - epidermal growth factor and transforming growth factor- α enhance the interleukin-1- and tumour necrosis factor-stimulated prostaglandin E_2 production and the IL-1 specific binding on amnion cells, 923
 - fatty acids as antiinflammatory and immunomodulatory agents, 57
 - inhibition of the thermogenic and pyrogenic responses to interleukin- β in the rat by dietary n-3 fatty acids, 615
 - interleukin-1 β stimulates prostaglandin E_2 and $F_{2\alpha}$ synthesis in human ovarian granulosa cells in culture, 963
 - modulation of lipid derived mediators by polyunsaturated fatty acids, 51
 - mononuclear cell-conditioned medium enhances thrombin-stimulated prostaglandin I_2 production by human umbilical vein endothelial cells in culture, 675
 - prostaglandin E_2 antagonizes gingival fibroblast proliferation stimulated by interleukin-1 β , 847
- Cytoplasmic fatty acid binding protein: significance for intracellular transport of fatty acids and putative role on signal transduction pathways, 33

D

- 11-Dehydrothromboxane B_2 excretion, effect of anchovy oil supplementation on, 305
- Delta-6-desaturase: function of dietary polyunsaturated fatty acids in the nervous system, 5
- Dermatitis, atopic, role of eicosanoids in the pathogenesis of, 409
- Developing countries: lipid intake during pregnancy and possible effect of essential fatty acid deficiency on fetal growth, 139z
- Diabetes mellitus
- evening primrose oil and fish oil in non-insulin-dependent diabetes, 569
 - neuropathy of, effects of gamma-linolenic acid on, 101
 - prostacyclin release in experimental diabetes: effects of evening primrose oil, 699
 - prostaglandin biosynthesis in the microcirculation: regulation by endothelial and non-endothelial factors, 723
 - treatment of patients with peripheral arterial occlusive disease with intravenous iloprost and prostaglandin E_1 , 573
- Diclofenac sodium
- identification of two different rate-limiting mechanisms controlling the release of NSAIDs from silastic polymeric devices, 391
 - protective effect against endotoxic shock in anaesthetized pigs of, 193
- Diet(ary)
- antiplatelet components isolated from oil of cloves, 363
 - aqueous extracts of garlic inhibit prostaglandin synthesis in the ovine ureter, 855
 - arachidonic acid supplementation dose-dependently reverses the effects of a butter-enriched diet in rats, 247
 - comparative study of diets enriched with evening primrose black-currant borage or fungal oils on blood pressure and pressor responses in spontaneously hypertensive rats, 809
 - effects of a fish oil rich diet on hyperoxic lung damage in mice, 969
 - effects of fish oils on lipid variables and platelet function indices, 645
 - effects of garlic-derived principle ajoene on aggregation and arachidonic acid metabolism in human blood platelets, 587
 - effects of starvation on the urinary contents of primary thromboxane and prostacyclin metabolites and a possible selenium-dependent role for prostacyclin in the renal handling of ketone bodies, 385
 - evening primrose oil and fish oil in non-insulin-dependent diabetes, 569
 - fatty acids as antiinflammatory and immunomodulatory agents, 57
 - fish oil supplementation alters LTB_3 : LTB_4 ratios but does not affect the expression of graft versus host disease in mice, 561
 - function of dietary polyunsaturated fatty acids in the nervous system, 5
 - indomethacin-induced gastrointestinal ulcers in rats: effects of dietary fatty acids and endotoxin, 229
 - ingestion of marine oil reduces intravascular production of thromboxane A_2 as measured by 11-dehydrothromboxane B_2 excretion, 305
 - inhibition of the thermogenic and pyrogenic responses to interleukin- β in the rat by dietary n-3 fatty acids, 615
 - interaction between vitamin B6 deficiency and low EFA dietary intake on kidney phospholipids and prostaglandin E_2 in the rat, 531
 - lipid intake during pregnancy in developing countries: possible effect of essential fatty acid deficiency on fetal growth, 139
 - modulation of lipid derived mediators by polyunsaturated fatty acids, 51
 - pilot trial to determine the efficacy of low dose fish oil in the treatment of angina pectoris in geriatrics, 687
 - plant and marine n-3 fatty acids inhibit experimental metastasis of rat mammary adenocarcinoma cells, 309

- prostacyclin release in experimental diabetes: effects of evening primrose oil, 699
- putative role of dietary omega-3 polyunsaturated fatty acids in oxidative modification of low density lipoprotein, 397
- sunflower linseed and fish oils affect phospholipid fatty acid composition development of cardiac lesions phospholipase activity and eicosanoid production in Atlantic salmon, 665
- supplementation with primrose oil or fish oil does not change urinary excretion of prostacyclin and thromboxane metabolites in pre-eclamptic women, 691
- Diethylnitrosamine, effect on prostaglandin E and lipid peroxidation levels in rat liver lung and renal tissue of, 805
- Dihomo-gamma-linolenic acid (DGLA)
- effect of ascorbate on essential fatty acid composition in B16 melanoma cells, 771
- evening primrose oil and fish oil in non-insulin-dependent diabetes, 569
- fatty acids as antiinflammatory and immunomodulatory agents, 57
- Dihydroxyvitamin D₃: modulation of prostaglandin E₂-induced Ca²⁺ influx by steroid hormones in osteoblast-like cells, 711
- DNA synthesis
- induction of apoptosis in blood cells from a patient with chronic myelogenous leukaemia by selective 5-lipoxygenase inhibitor SC41661A, 323
- prostaglandin E₂ antagonizes gingival fibroblast proliferation stimulated by interleukin-1 β , 847
- Docosahexaenoic acid (DHA)
- inhibitory effect of DHA-containing phospholipids on 5-lipoxygenase in rat basophilic leukaemia cells, 861
- modulation of lipid derived mediators by polyunsaturated fatty acids, 51

E

- Eicosapentaenoic acid (EPA)
- and atherosclerosis, 337
- cancer cachexia: interaction between eicosapentaenoic acid and inhibitory guanine nucleotide-regulatory protein, 105
- EPA abolishes the proatherogenic effects of cholesterol: effects on migration of bovine smooth muscle and endothelial cells in vitro, 463
- evening primrose oil and fish oil in non-insulin-dependent diabetes, 569
- interactions between arachidonic and eicosapentaenoic acids during their dioxygenase-dependent peroxidation, 23
- oxy-radicals lipid peroxides and essential fatty acids in patients with glomerular disorders, 603
- pilot trial to determine the efficacy of low dose fish oil in the treatment of angina pectoris in geriatrics, 687
- Endometrium
- arachidonic acid release and inositol lipid metabolism in response to bradykinin and related peptides in human endometrial cells in vitro, 253
- effects of guinea-pig endometrial proteins on phospholipase A₂ activity and prostaglandin synthesis, 219
- synthesis of 12-hydroxyeicosatetraenoic acid by human endometrium and decidua, 609
- Endothelin-1
- endothelin-1-induced bronchoconstriction and vasopressin in the guinea-pig is mediated by secondary thromboxane A₂ release, 261
- prostaglandin D₂ and endothelin-1 induce prostanoid production in capillary endothelium of human brain, 789
- Endothelium
- comparison of the potency of various serotypes of *E. coli* lipopolysaccharides in stimulating prostaglandin I₂ production and suppressing ACE activity in cultured human umbilical vein endothelial cells, 955
- effect of removal on basal and muscarinic cholinergic stimulated rat mesenteric vascular bed prostanoid synthesis, 373
- eicosapentaenoic acid abolishes the proatherogenic effects of cholesterol: effects on migration of bovine smooth muscle and endothelial cells in vitro, 463
- hyperoxia decreases cyclooxygenase activity in endothelial cells, 455
- mononuclear cell-conditioned medium enhances thrombin-stimulated prostaglandin I₂ production by human umbilical vein endothelial cells in culture, 675

- prostaglandin biosynthesis in the microcirculation: regulation by endothelial and non-endothelial factors, 723
- prostaglandin D₂ and endothelin-1 induce prostanoid production in capillary endothelium of human brain, 789
- prostaglandin I₂ production and angiotensin converting enzyme activity in cultured porcine pulmonary artery endothelial cells treated with paraquat, 291
- Endotoxin(s)
- comparison of the potency of various serotypes of *E. coli* lipopolysaccharides in stimulating prostaglandin I₂ production and suppressing ACE activity in cultured human umbilical vein endothelial cells, 955
- endotoxic shock has differential effects on renal and splanchnic eicosanoid synthesis, 509
- indomethacin-induced gastrointestinal ulcers in rats: effects of dietary fatty acids and endotoxin, 229
- macrophage prostaglandin E₂ and oxidative responses to endotoxin during immunosuppression associated with anaesthesia and transfusion, 945
- mononuclear cell-conditioned medium enhances thrombin-stimulated prostaglandin I₂ production by human umbilical vein endothelial cells in culture, 675
- protective effect of diclofenac sodium against endotoxic shock in anaesthetized pigs, 193
- Epidermal growth factor
- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
- epidermal growth factor and transforming growth factor- α enhance the interleukin-1- and tumour necrosis factor-stimulated prostaglandin E₂ production and the IL-1 specific binding on amnion cells, 923
- protein kinase A activators inhibit agonist induced prostaglandin production in human amnion, 355
- Erythrocyte deformability, in vitro effect of triacylglycerols on, 351
- Eugenol and acetyl eugenol: antiplatelet components isolated from oil of cloves, 363
- Evening primrose oil
- comparative study of diets enriched with evening primrose black-currant borage or fungal oils on blood pressure and pressor responses in spontaneously hypertensive rats, 809
- in experimental diabetes, 699
- in non-insulin-dependent diabetes mellitus, 569
- in pre-eclamptic women, 691
- Excretion
- complement 5a induces in vivo synthesis of cysteinyl leukotrienes in rats, 331
- effect of leukotrienes on renal water excretion, 297
- effects of starvation on the urinary contents of primary thromboxane and prostacyclin metabolites and a possible selenium-dependent role for prostacyclin in the renal handling of ketone bodies, 385
- ingestion of marine oil reduces intravascular production of thromboxane A₂ as measured by 11-dehydrothromboxane B₂ excretion, 305
- leukotriene B₄ generation by blood polymorphonuclear leukocytes after incubation in urine, 761
- sodium loading and renal prostaglandins in old rats, 815
- supplementation with primrose oil or fish oil does not change urinary excretion of prostacyclin and thromboxane metabolites in pre-eclamptic women, 691
- Eye(s): bimodal regulation of adenylate cyclase by prostaglandin E₂ receptors in porcine ciliary epithelium, 765

Fat see Adipose tissue

Fatty acids

- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
- arachidonic acid and cell signalling in the ovary and placenta, 79
- arachidonic acid supplementation dose-dependently reverses the effects of a butter-enriched diet in rats, 247
- and cell signalling, 1
- cytoplasmic fatty acid binding protein: significance for intracellular transport of fatty acids and putative role on signal transduction pathways, 33
- dietary sunflower linseed and fish oils affect phospholipid fatty acid

- composition development of cardiac lesions phospholipase activity and eicosanoid production in Atlantic salmon, 665
- distribution of unsaturated fatty acids in phospholipids of arteries from nonpregnant pregnant and fetal sheep, 907
- dynamics of the membrane lipid phase, 27
- effect of ascorbate on essential fatty acid composition in B16 melanoma cells, 771
- effect of pravastatin on fatty acid profile of low density lipoprotein in patients with hypercholesterolaemia, 155
- effect of triacylglycerols on erythrocyte deformability in vitro, 351
- effects of fish oils on lipid variables and platelet function indices, 645
- effects of gamma-linolenic acid on breast pain and diabetic neuropathy: possible non-eicosanoid mechanisms, 101
- fatty acids as antiinflammatory and immunomodulatory agents, 57
- fatty acids may regulate aldosterone secretion and mediate some of insulin's effects on blood pressure, 43
- free fatty acids as modulators of the steroid hormone message, 63
- function of dietary polyunsaturated fatty acids in the nervous system, 5
- indomethacin-induced gastrointestinal ulcers in rats: effects of dietary fatty acids and endotoxin, 229
- inhibitory effect of docosahexaenoic acid-containing phospholipids on 5-lipoxygenase in rat basophilic leukaemia cells, 861
- interaction between arachidonic and eicosapentaenoic acids during their dioxygenase-dependent peroxidation, 23
- interaction between vitamin B6 deficiency and low essential fatty acid dietary intake on kidney phospholipids and prostaglandin E₂ in the rat, 531
- mechanism of lipid mobilization associated with cancer cachexia: interaction between eicosapentaenoic acid and inhibitory guanine nucleotide-regulatory protein, 105
- migraine and, 537
- modulation of lipid derived mediators by polyunsaturated fatty acids, 51
- modulation by sex hormones of the membranous transducing system regulating fatty acid mobilization in adipose tissue, 91
- oxy-radicals lipid peroxides and essential fatty acids in patients with glomerular disorders, 603
- physicochemical approach of the function of the fatty acid incorporation in biological membranes, 17
- regulation of gene expression by fatty acids in the adipose cell, 89
- role of fatty acids in signal transduction: modulators and messengers, 117
- role of free fatty acids in regulating the tissue availability and synthesis of sex steroids, 111
- short chain fatty acid-induced hyperventilation is due to prostaglandin F_{2α}, 833
- structural and functional aspects of cytosolic fatty acid-binding proteins, 887
- see also individual fatty acids*
- Fetus**
- distribution of unsaturated fatty acids in phospholipids of arteries from nonpregnant pregnant and fetal sheep, 907
- lipid intake during pregnancy in developing countries: possible effect of essential fatty acid deficiency on fetal growth, 139
- Fever:** inhibition of the thermogenic and pyrogenic responses to interleukin-1 β in the rat by dietary n-3 fatty acids, 615
- Fibroblasts, gingival:** prostaglandin E₂ inhibition of proliferation stimulated by interleukin-1 β , 847
- Fish oil**
- dietary fish oil supplementation alters LTB₂ : LTB₄ ratios but does not affect the expression of acute graft versus host disease in mice, 561
- dietary sunflower linseed and fish oils affect phospholipid fatty acid composition development of cardiac lesions phospholipase activity and eicosanoid production in Atlantic salmon, 665
- dietary supplementation with primrose oil or fish oil does not change urinary excretion of prostacyclin and thromboxane metabolites in pre-eclamptic women, 691
- effects of a fish oil rich diet on hyperoxic lung damage in mice, 969
- effects of fish oils on lipid variables and platelet function indices, 645
- evening primrose oil and fish oil in non-insulin-dependent diabetes, 569
- function of dietary polyunsaturated fatty acids in the nervous system, 5
- ingestion of marine oil reduces intravascular production of thromboxane A₂ as measured by 11-dehydrothromboxane B₂ excretion, 305
- pilot trial to determine the efficacy of low-dose fish oil in the treatment of angina pectoris in geriatrics, 687
- plant and marine n-3 fatty acids inhibit experimental metastasis of rat mammary adenocarcinoma cells, 309
- Free radicals**
- anti-mutagenic action of prostacyclin and, 175
- effect of diethylnitrosamine on prostaglandin E and lipid peroxidation levels in rat's liver lung and renal tissue, 805
- effects of a fish oil rich diet on hyperoxic lung damage in mice, 969
- macrophage prostaglandin E₂ and oxidative responses to endotoxin during immunosuppression associated with anaesthesia and transfusion, 945
- oxy-radicals lipid peroxides and essential fatty acids in patients with glomerular disorders, 603
- peptidoleukotrienes increase the efflux of glutathione from perfused rat liver, 715
- prostacyclin regulates splanchnic blood flow during early haemorrhage/reperfusion injury, 401
- putative role of dietary omega-3 polyunsaturated fatty acids in oxidative modification of low density lipoprotein, 397

G

Gamma-linolenic acid (GLA)

- comparative study of diets enriched with evening primrose black-currant borage or fungal oils on blood pressure and pressor responses in spontaneously hypertensive rats, 809
- effect of ascorbate on essential fatty acid composition in B16 melanoma cells, 771
- effects of GLA on breast pain and diabetic neuropathy: possible non-eicosanoid mechanisms, 101
- fatty acids as antiinflammatory and immunomodulatory agents, 57
- plant and marine n-3 fatty acids inhibit experimental metastasis of rat mammary adenocarcinoma cells, 309

Garlic

- aqueous extracts inhibit prostaglandin synthesis in the ovine ureter, 855
- effects of ajoene on aggregation and arachidonic acid metabolism in human blood platelets, 587

Gastrointestinal tract

- changes in gastric mucosal histamine and prostaglandin E₂-like activities in relation to portal somatostatin following small bowel resection in guinea-pigs, 319
- effect of 16,16-dimethyl prostaglandin E₂ on proliferation of an intestinal goblet cell line and its synthesis and secretion of mucin glycoproteins, 423
- effects of regular and enteric-coated aspirin on bleeding time thromboxane and prostacyclin, 515
- indomethacin-induced gastrointestinal ulcers in rats: effects of dietary fatty acids and endotoxin, 229
- leukotriene B₄ ω -hydrolase activity in polymorphonuclear leukocytes from patients with inflammatory bowel disease, 489
- SC-46275: a potent and highly selective agonist at the EP3 receptor, 939

- Gender:** U 46619 induces different blood pressure effects in male and female spontaneously hypertensive rats, 469

Gene(s)

- prostacyclin as a potent anti-mutagen, 175
- regulation of gene expression by fatty acids in the adipose cell, 89
- Genistein: effects on platelet function are due to thromboxane receptor antagonism rather than inhibition of tyrosine kinase, 379
- Glucocorticoid, effects on signalling by prostaglandin E₂ in osteoblast-like cells of, 867
- Glutathione efflux from perfused rat liver, effect of leukotrienes on, 715
- Glycerol trinitrate: organic nitrates and compounds that increase intraplatelet cyclic GMP levels enhance the antaggregating effects of iloprost, 839
- G-proteins, interaction in cancer cachexia between eicosapentaenoic acid and, 105
- Graft versus host disease, acute, effect of dietary fish oil supplementation on, 561

Growth factors

- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
- protein kinase A activators inhibit agonist induced prostaglandin production in human amnion, 355

H

Haemopoiesis: role of leukotrienes in the regulation of proliferation of normal and leukaemic haemopoietic cells, 123

Haemorrhage

- exaggerated splanchnic prostaglandin I_2 release following acute haemorrhage is due to new protein synthesis, 207
- prostacyclin regulates splanchnic blood flow during early haemorrhage/reperfusion injury, 401

Heart (disease)

- arachidonic acid inhibits electrically-induced intracellular calcium transients in neonatal rat cardiomyocytes, 837
- dietary sunflower linseed and fish oils affect phospholipid fatty acid composition development of cardiac lesions phospholipase activity and eicosanoid production in Atlantic salmon, 665
- effect of pravastatin on fatty acid profile of low density lipoprotein in patients with hypercholesterolaemia, 155
- effect of prostaglandin E_1 on renal function after cardiac surgery involving cardiopulmonary bypass, 627
- pharmacokinetics and pharmacodynamics of the prostacyclin analogue 15AU81 in the anaesthetized beagle dog, 159
- pilot trial to determine the efficacy of low-dose fish oil in the treatment of angina pectoris in geriatrics, 687
- radioimmunoassay for the prostacyclin analogue 15AU81: a preliminary pharmacokinetics study in the dog, 167
- Type A behaviour and alcohol consumption: effects on resting and post-exercise bleeding time thromboxane and prostacyclin metabolites, 143

Hippocampal mossy fiber synaptosomal preparation, prostaglandin $F_{2\alpha}$ synthesis in, 127, 877

Histamine, gastric mucosal: in relation to portal somatostatin following small bowel resection in guinea-pigs, 319

Hormones

- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
- arachidonic acid and cell signalling in the ovary and placenta, 79
- changes in gastric mucosal histamine and prostaglandin E_2 -like activities in relation to portal somatostatin following small bowel resection in guinea-pigs, 319
- changes in phospholipase A_2 activity of the rabbit ampullary epithelium by ovarian steroids, 315
- effects of guinea-pig endometrial proteins on phospholipase A_2 activity and prostaglandin synthesis, 219
- fatty acids may regulate aldosterone secretion and mediate some of insulin's effects on blood pressure, 43
- free fatty acids as modulators of the steroid hormone message, 63
- modulation of prostaglandin E_2 -induced Ca^{2+} influx by steroid hormones in osteoblast-like cells, 711
- modulation by sex hormones of the membranous transducing system regulating fatty acid mobilization in adipose tissue, 91
- role of free fatty acids in regulating the tissue availability and synthesis of sex steroids, 111

12-Hydroxyeicosatetraenoic acid synthesis by human endometrium and decidua, 609

Hypercholesterolaemia *see under* Cholesterol

Hyperoxia

- effect on cyclooxygenase activity in endothelial cells of, 455
- effects of a fish oil rich diet on hyperoxic lung damage in mice, 969

Hypertension

- comparative study of diets enriched with evening primrose black-currant borage or fungal oils on blood pressure and pressor responses in spontaneously hypertensive rats, 809
- effect of 5-lipoxygenase and cyclooxygenase blockade on porcine haemodynamics during continuous infusion of platelet-activating factor, 549
- fatty acids may regulate aldosterone secretion and mediate some of insulin's effects on blood pressure, 43
- prostaglandins and portal hypertension, 203
- U 46619 induces different blood pressure effects in male and female spontaneously hypertensive rats, 469

Hyperventilation induced by short chain fatty acids is due to prostaglandin $F_{2\alpha}$, 833

I

Iloprost

- organic nitrates and compounds that increase intraplatelet cyclic GMP levels enhance the antaggregating effects of iloprost, 839
- treatment of patients with peripheral arterial occlusive disease with intravenous iloprost and prostaglandin E_2 , 573

Immune system

- actions of interleukin-2 on amnion prostaglandin biosynthesis, 959
- comparison of hepatic splenic peritoneal and alveolar macrophages with respect to prostaglandin E_2 thromboxane B_2 production and antibody-dependent cellular cytotoxicity function, 149
- dietary fish oil supplementation alters LTB_4 : LTB_5 ratios but does not affect the expression of acute graft versus host disease in mice, 561
- effects of cysteinyl leukotriene antagonist ONO-1078 on antigen-induced responses in allergic sheep, 233
- effects of new leukotriene receptor antagonist ONO-1078 on human bronchial smooth muscle in vitro, 241
- effects of novel thromboxane A_2 receptor antagonist S-1452 on antigen-induced bronchoconstriction and airway hyperresponsiveness in guinea-pigs, 343
- fatty acids as antiinflammatory and immunomodulatory agents, 57
- lupus anticoagulant and eicosanoids, 483
- macrophage prostaglandin E_2 and oxidative responses to endotoxin during immunosuppression associated with anaesthesia and transfusion, 945
- pharmacological model for airway hypersensitivity produced by propranolol and reserpine in guinea-pigs, 447
- purification of human blood basophils and leukotriene C_4 generation following calcium ionophore stimulation, 783
- role of eicosanoids in the pathogenesis of atopic dermatitis, 409
- role of leukotrienes and platelet-activating factor in allergic bronchoconstriction and their interactions in guinea-pig airway in vivo, 579

Indomethacin

- effect of dietary fatty acids and endotoxin on indomethacin-induced gastrointestinal ulcers in rats, 229
- effect of 5-lipoxygenase and cyclooxygenase blockade on porcine haemodynamics during continuous infusion of platelet-activating factor, 549
- influence on hatching of mouse blastocysts of, 683

Inflammation

- airway *see under* Airway
- arachidonic acid stimulates interleukin-6 release from rat peritoneal macrophages in vitro: evidence for prostacyclin-dependent mechanism, 915
- fatty acids as antiinflammatory and immunomodulatory agents, 57
- identification of two different rate-limiting mechanisms controlling the release of NSAIDs from silastic polymeric devices, 391
- leukotriene B_4 generation by blood polymorphonuclear leukocytes after incubation in urine, 761
- leukotriene B_4 ω -hydrolase activity in polymorphonuclear leukocytes from patients with inflammatory bowel disease, 489
- peptidoleukotrienes increase the efflux of glutathione from perfused rat liver, 715
- prostaglandin E_2 antagonizes gingival fibroblast proliferation stimulated by interleukin-1 β , 847
- Insulin: fatty acids may regulate aldosterone secretion and mediate some of insulin's effects on blood pressure, 43

Interleukins (ILs)

- actions of IL-2 on amnion prostaglandin biosynthesis, 959
- arachidonic acid stimulates IL-6 release from rat peritoneal macrophages in vitro: evidence for a prostacyclin-dependent mechanism, 915
- effects of IL-1 α on arachidonic acid metabolism in human osteosarcoma osteoblastic cells, 521
- epidermal growth factor and transforming growth factor- α enhance the IL-1- and tumour necrosis factor-stimulated prostaglandin E_2 production and the IL-1 specific binding on amnion cells, 923
- inhibition of the thermogenic and pyrogenic responses to IL-1 β in the rat by dietary n-3 fatty acid supplementation, 615
- IL-1 β stimulates prostaglandin E_2 and $F_{2\alpha}$ synthesis in human ovarian granulosa cells in culture, 963

- mononuclear cell-conditioned medium enhances thrombin-stimulated prostaglandin I_2 production by human umbilical vein endothelial cells in culture, 675
 - prostaglandin E_2 antagonizes gingival fibroblast proliferation stimulated by IL-1 β , 847
- Ischaemia**
- effect of nordihydroguaiaretic acid on leukotriene C_4 and prostaglandin E_2 production following different reperfusion periods in rat brain after forebrain ischaemia correlated with morphological changes, 633
 - effect of policosanol on cerebral ischaemia in Mongolian gerbils: role of prostacyclin and thromboxane A_2 , 695
 - effects of prostacyclin analogue OP-41483 on normothermic liver ischaemia and reperfusion injury in rats, 417
 - exaggerated splanchnic prostaglandin I_2 release following acute haemorrhage is due to new protein synthesis, 207
 - prostaglandin biosynthesis in the microcirculation: regulation by endothelial and non-endothelial factors, 723
 - thromboxane receptor antagonism and synthase inhibition in cerebral ischaemia, 211

K

- Kallidin**: arachidonic acid release and inositol lipid metabolism in response to bradykinin and related peptides in human endometrial cells in vitro, 253
 - Keratinocytes**, human skin, endogenous prostaglandin E_2 modulates calcium-induced differentiation in, 777
 - Ketone bodies**, possible selenium-dependent role of prostacyclin in renal handling of, 385
- Kidney**
- complement 5a induces in vivo synthesis of cysteinyl leukotrienes in rats, 331
 - direct interactions between platelets and cultured rat mesangial cells, 597
 - effect of diethylnitrosamine on prostaglandin E and lipid peroxidation levels in rat's liver lung and renal tissue, 805
 - effect of leukotrienes on renal water excretion, 297
 - effect of prostaglandin E_1 on renal function after cardiac surgery involving cardiopulmonary bypass, 627
 - effects of starvation on the urinary contents of primary thromboxane and prostacyclin metabolites and a possible selenium-dependent role for prostacyclin in the renal handling of ketone bodies, 385
 - endotoxic shock has differential effects on renal and splanchnic eicosanoid synthesis, 509
 - interaction between vitamin B6 deficiency and low essential fatty acid dietary intake on kidney phospholipids and prostaglandin E_2 in the rat, 531
 - oxy-radicals lipid peroxides and essential fatty acids in patients with glomerular disorders, 603
 - prostacyclin release in experimental diabetes: effects of evening primrose oil, 699
 - sodium loading and renal prostaglandins in old rats, 815
 - tiaprofenic acid inhibits the renal reabsorption of sulfate in rats, 503

L

- Larynx**, metastasizing squamous cell carcinoma of, increased thromboxane A_2 production at primary tumour site in, 527
- Leukaemia**
- induction of apoptosis in blood cells from a patient with chronic myelogenous leukaemia by selective 5-lipoxygenase inhibitor SC41661A, 323
 - role of leukotrienes in the regulation of proliferation of normal and leukaemic haemopoietic cells, 123
- Leukotrienes (LTs)**
- antagonist ONO-1078
 - effects on antigen-induced responses in allergic sheep, 233
 - effects on human bronchial smooth muscle in vitro, 241
 - complement 5a induces in vivo synthesis of cysteinyl LTs in rats, 331
 - continuous assay of oxygen consumption used to evaluate the pharmacology of 5-lipoxygenase inhibitors, 929
 - dietary fish oil supplementation alters LTB_4 : LTB_5 ratios but does

- not affect the expression of acute graft versus host disease in mice, 561
 - effect of 5-lipoxygenase and cyclooxygenase blockade on porcine haemodynamics during continuous infusion of platelet-activating factor, 549
 - effect of nordihydroguaiaretic acid on leukotriene C_4 and prostaglandin E_2 production following different reperfusion periods in rat brain after forebrain ischaemia correlated with morphological changes, 633
 - effects on renal water excretion of, 297
 - induction of apoptosis in blood cells from a patient with chronic myelogenous leukaemia by selective 5-lipoxygenase inhibitor SC41661A, 323
 - inhibitory effect of docosahexaenoic acid-containing phospholipids on 5-lipoxygenase in rat basophilic leukaemia cells, 861
 - LTB_4 generation by blood polymorphonuclear leukocytes after incubation in urine, 761
 - LTB_4 ω -hydrolase activity in polymorphonuclear leukocytes from patients with inflammatory bowel disease, 489
 - measurements of LTs in human plasma by solid phase extraction and high performance liquid chromatography, 851
 - migraine and, 537
 - peptidoleukotrienes increase the efflux of glutathione from perfused rat liver, 715
 - pharmacological model for airway hypersensitivity produced by propranolol and reserpine in guinea-pigs, 447
 - purification of human blood basophils and leukotriene C_4 generation following calcium ionophore stimulation, 783
 - role of leukotrienes and platelet-activating factor in allergic bronchoconstriction and their interactions in guinea-pig airway in vivo, 579
 - role of leukotrienes in the regulation of proliferation of normal and leukaemic haemopoietic cells, 123
- Linoleic acid**
- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
 - distribution of unsaturated fatty acids in phospholipids of arteries from nonpregnant pregnant and fetal sheep, 907
 - effect of ascorbate on essential fatty acid composition in B16 melanoma cells, 771
 - effect of pravastatin on fatty acid profile of low density lipoprotein in patients with hypercholesterolaemia, 155
 - function of dietary polyunsaturated fatty acids in the nervous system, 5
- Lipid binding protein (cytoplasmic fatty acid binding protein): significance for intracellular transport of fatty acids and putative role on signal transduction pathways, 33**
- Lipid peroxidation**
- effect of diethylnitrosamine on PGE and lipid peroxidation levels in rat's liver lung and renal tissue, 805
 - effects of a fish oil rich diet on hyperoxic lung damage in mice, 969
 - effects of fish oils on lipid variables and platelet function indices, 645
 - interactions between arachidonic and eicosapentaenoic acids during their dioxygenase-dependent peroxidation, 23
 - oxy-radicals lipid peroxides and essential fatty acids in patients with glomerular disorders, 603
- Lipopolysaccharide** *see* Endotoxin
- Lipoprotein(s)**
- effects of fish oils on lipid variables and platelet function indices, 645
 - effects of pravastatin on fatty acid profile of low density lipoprotein in patients with hypercholesterolaemia, 155
 - lipoproteins from normolipidaemic and dyslipidaemic subjects modify the thromboxane A_2 generation by platelets in clotting human blood, 475
 - putative role of dietary omega-3 polyunsaturated fatty acids in oxidative modification of low density lipoprotein, 397
- Liver**
- comparison of hepatic splenic peritoneal and alveolar macrophages with respect to prostaglandin E_2 thromboxane B_2 production and antibody-dependent cellular cytotoxicity function, 149
 - effect of diethylnitrosamine on prostaglandin E and lipid peroxidation levels in rat's liver lung and renal tissue, 805
 - effects of prostacyclin analogue OP-41483 on normothermic liver ischaemia and reperfusion injury in rats, 417

function of dietary polyunsaturated fatty acids in the nervous system, 5
 peptidoleukotrienes increase the efflux of glutathione from perfused rat liver, 715
 prostaglandin and portal hypertension, 203

Lung(s)

effect of diethylnitrosamine on prostaglandin E and lipid peroxidation levels in rat's liver lung and renal tissue, 805
 effect of a fish oil rich diet on hyperoxic lung damage in mice, 969
 effect of 5-lipoxygenase and cyclooxygenase blockade on porcine haemodynamics during continuous infusion of platelet-activating factor, 549
 hyperoxia decreases cyclooxygenase activity in endothelial cells, 455
 prostacyclin release in experimental diabetes: effects of evening primrose oil, 699
 prostaglandin I₂ production and angiotensin converting enzyme activity in cultured porcine pulmonary artery endothelial cells treated with paraquat, 291
 short chain fatty acid-induced hyperventilation is due to prostaglandin F_{2α}, 833

Lupus anticoagulant, eicosanoids and, 483

M

Macrophages

arachidonic acid stimulates interleukin-6 release from rat peritoneal macrophages in vitro: evidence for prostacyclin-dependent mechanism, 915
 comparison of hepatic splenic peritoneal and alveolar macrophages with respect to prostaglandin E₂ thromboxane B₂ production and antibody-dependent cellular cytotoxicity function, 149
 macrophage prostaglandin E₂ and oxidative responses to endotoxin during immunosuppression associated with anaesthesia and transfusion, 945

Mammary tissue *see* Breast

Mastalgia, effects of gamma-linolenic acid on, 101

 - changes in gastric mucosal histamine and PGE₂-like activities in relation to portal somatostatin following small bowel resection in guinea-pigs, 319
 - comparison of hepatic splenic peritoneal and alveolar macrophages with respect to PGE₂ and thromboxane B₂ production and antibody-dependent cellular cytotoxicity function, 149
 - dietary sunflower linseed and fish oils affect phospholipid fatty acid composition development of cardiac lesions phospholipase activity and eicosanoid production in Atlantic salmon, 665
 - effect of diethylnitrosamine on PGE and lipid peroxidation levels in rat's liver lung and renal tissue, 805
 - effect of 16,16-dimethyl PGE₂ on proliferation of an intestinal goblet cell line and its synthesis and secretion of mucin glycoproteins, 423
 - effect of glucocorticoid on signalling by PGE₂ in osteoblast-like cells, 867
 - effect of interleukin-1 α on arachidonic acid metabolism in human osteosarcoma osteoblastic cells, 521
 - effect of nordihydroguaiaretic acid on leukotriene C₄ and PGE₂ production following different reperfusion periods in rat brain after forebrain ischaemia correlated with morphological changes, 633
 - endogenous PGE₂ modulates calcium-induced differentiation in human skin keratinocytes, 777
 - endotoxic shock has differential effects on renal and splanchnic eicosanoid synthesis, 509
 - enhancement of antineoplastic effect and attenuation of sister chromatid exchanges by PGE₂ in Ehrlich ascites tumour cells treated with cyclophosphamide *in vivo*, 707
 - epidermal growth factor and transforming growth factor- α enhance the interleukin-1- and tumour necrosis factor-stimulated PGE₂ production and the interleukin-1 specific binding on amnion cells, 923
 - expression of PGE₂ receptor in hamster buccal pouch, effect of benzo(a)pyrene and nicotine on, 821
 - hyperoxia decreases cyclooxygenase activity in endothelial cells, 455
 - inhibition of gingival fibroblast proliferation stimulated by interleukin-1 β , 847
 - interaction between vitamin B6 deficiency and low essential fatty acid dietary intake on kidney phospholipids and PGE₂ in the rat, 531
 - interleukin-1 β stimulates PGE₂ and PGF_{2 α} synthesis in human ovarian granulosa cells in culture, 963
 - macrophage PGE₂ and oxidative responses to endotoxin during immunosuppression associated with anaesthesia and transfusion, 945
 - modulation of PGE₂-induced Ca²⁺ influx by steroid hormones in osteoblast-like cells, 711
 - possible cross-refractoriness between phospholipase A₂ and the calcium ionophore A23187 in the stimulation of uterine prostaglandin production, 327
 - prostaglandin D₂ and endothelin-1 induce prostanoid production in capillary endothelium of human brain, 789
 - protein kinase A activators inhibit agonist-induced prostaglandin production in human amnion, 355
 - relationship between factors influencing Na⁺-K⁺-ATPase activity and eicosanoid production from ¹⁴C-AA in spayed rat uteri, 273
 - SC-46275: a potent and highly selective agonist at the EP₃ receptor, 939
 - sodium loading and renal prostaglandins in old rats, 815
 - and tiaprofenic acid inhibition of renal sulfate reabsorption in rats, 503
 - treatment of patients with peripheral arterial occlusive disease with intravenous iloprost and PGE₂, 573
- 6-keto-Prostaglandin F_{1 α}
- acute haemorrhage induces increased release of, 207, 401
 - anti-mutagenic action of prostacyclin and, 175
 - effects of starvation on the urinary contents of primary thromboxane and prostacyclin metabolites and a possible selenium-dependent role of prostacyclin in the renal handling of ketone bodies, 385
- hyperoxia decreases cyclooxygenase activity in endothelial cells, 455
- in metastasizing squamous cell carcinoma of the larynx, 527
- possible cross-refractoriness between phospholipase A₂ and the calcium ionophore A23187 in the stimulation of uterine prostaglandin production, 327
- relationship between factors influencing Na⁺-K⁺-ATPase activity and eicosanoid production from ¹⁴C-AA in spayed rat uteri, 273
- sodium loading and renal prostaglandins in old rats, 815
- Type A behaviour and alcohol consumption: effects on resting and post-exercise bleeding time thromboxane and prostacyclin metabolites, 143
- Prostaglandin F_{2 α} (PGF_{2 α})
- effects of guinea-pig endometrial proteins on phospholipase A₂ activity and prostaglandin synthesis, 219
 - in hippocampal mossy fiber synaptosomal preparation, 127, 877
 - immunohistochemical localization of PGF_{2 α} receptor in the rat oviduct, 185
 - interleukin-1 β stimulates PGE₂ and PGF_{2 α} synthesis in human ovarian granulosa cells in culture, 963
 - possible cross-refractoriness between phospholipase A₂ and the calcium ionophore A23187 in the stimulation of uterine prostaglandin production, 327
 - prostaglandin D₂ and endothelin-1 induce prostanoid production in capillary endothelium of human brain, 789
 - relationship between factors influencing Na⁺-K⁺-ATPase activity and eicosanoid production from ¹⁴C-AA in spayed rat uteri, 273
 - and short chain fatty acid-induced hyperventilation, 833
- Prostaglandin I₂ *see* Prostacyclin
- Protein kinase(s) (PK)
- and amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
 - prostaglandin F_{2 α} synthesis in the hippocampal mossy fibre synaptosomal preparation and, 127
 - PKA activators inhibit agonist-induced prostaglandin production in human amnion, 355
 - PKC and role of fatty acids in signal transduction, 117

R

- Red blood cell deformability, *in vitro* effect of triacylglycerols on, 351
- Renal function *see* Kidney
- Reserpine and propranolol, experimental airway hyperreactivity model produced by, 447
- Respiratory tract *see* Airway; Lung
- Retinoic acid: modulation of prostaglandin E₂-induced calcium influx by steroid hormones in osteoblast-like cells, 711

S

- SC-46275: a potent and highly selective agonist at the EP₃ receptor, 939
- Selenium: effects of starvation on the urinary contents of primary thromboxane and prostacyclin metabolites and a possible selenium-dependent role of prostacyclin in the renal handling of ketone bodies, 385
- Sex hormones *see under* Steroids
- Shock
- complement 5a induces *in vivo* synthesis of cysteinyl leukotrienes in rats, 331
 - endotoxic shock has differential effects on renal and splanchnic eicosanoid synthesis, 509
 - exaggerated splanchnic prostaglandin I₂ release following acute haemorrhage is due to new protein synthesis, 207
 - platelet-activating factor-induced death in NMRI mice: a suitable shock model for testing new PAF receptor antagonists, 265
 - protective effect of diclofenac sodium against endotoxic shock in anaesthetized pigs, 193
- Signal transduction
- amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
 - arachidonic acid and cell signalling in the ovary and placenta, 79
 - cytoplasmic fatty acid binding protein: significance for intracellular

- transport of fatty acids and putative role on signal transduction pathways, 33
- effects of glucocorticoid on signalling by prostaglandin E_2 in osteoblast-like cells, 867
- fatty acids and, 1
- modulation by sex hormones of the membranous transducing system regulating fatty acid mobilization in adipose tissue, 91
- role of fatty acids in signal transduction: modulators and messengers, 117
- Silastic polymeric devices, release of NSAIDs from, 391
- Skin
- endogenous prostaglandin E_2 modulates calcium-induced differentiation in human keratinocytes, 777
 - role of eicosanoids in the pathogenesis of atopic dermatitis, 409
- Smoke, cigarette: expression of prostaglandin E_2 receptor in hamster buccal pouch and effects of benzo(a)pyrene and nicotine, 821
- Sodium (Na^+)
- effect of leukotrienes on renal water excretion, 297
 - relationship between factors influencing Na^+ - K^+ -ATPase activity and eicosanoid production from ^{14}C -AA in spayed rat uteri, 273
 - sodium loading and renal prostaglandins in old rats, 815
- Somatostatin, portal: and changes in gastric mucosal histamine and prostaglandin E_2 -like activities following small bowel resection in guinea-pigs, 319
- Spice: antiplatelet components isolated from oil of cloves, 363
- Spine: epidural blood flow during prostaglandin E_1 - or trimethaphan-induced hypotension, 873
- Spleen: comparison of hepatic splenic peritoneal and alveolar macrophages with respect to prostaglandin E_2 thromboxane B_2 production and antibody-dependent cellular cytotoxicity function, 149
- Steroids
- changes in phospholipase A_2 activity of the rabbit ampullary epithelium by ovarian steroids, 315
 - effects of glucocorticoid on signalling by prostaglandin E_2 in osteoblast-like cells, 867
 - effects of guinea-pig endometrial proteins on phospholipase A_2 activity and prostaglandin synthesis, 219
 - free fatty acids as modulators of the steroid hormone message, 63
 - modulation of prostaglandin E_2 -induced Ca^{2+} influx by steroid hormones in osteoblast-like cells, 711
 - modulation by sex hormones of the membranous transducing system regulating fatty acid mobilization in adipose tissue, 91
 - role of free fatty acids in regulating the tissue availability and synthesis of sex steroids, 111
- Sulfate, effect in rats of tiaprofenic acid on renal reabsorption of, 503

T

- Testosterone
- modulation by sex hormones of the membranous transducing system regulating fatty acid mobilization in adipose tissue, 91
 - role of free fatty acids in regulating the tissue availability and synthesis of sex steroids, 111
- Thromboxane(s)
- antiplatelet components isolated from oil of cloves and, 363
 - arachidonic acid stimulates interleukin-6 release from rat peritoneal macrophages in vitro: evidence for a prostacyclin-dependent mechanism, 915
 - arachidonic acid supplementation dose-dependently reverses the effects of a butter-enriched diet in rats, 247
 - comparison of hepatic splenic peritoneal and alveolar macrophages with respect to prostaglandin E_2 TXB_2 production and antibody-dependent cellular cytotoxicity function, 149
 - dietary sunflower linseed and fish oils affect phospholipid fatty acid composition development of cardiac lesions phospholipase activity and eicosanoid production in Atlantic salmon, 665
 - dietary supplementation with primrose oil or fish oil does not change urinary excretion of prostacyclin and thromboxane metabolites in pre-eclamptic women, 691
 - direct interactions between platelets and cultured rat mesangial cells, 597
 - effect of endothelium removal on basal and muscarinic cholinergic stimulated rat mesenteric vascular bed prostanoid synthesis, 373
 - effect of garlic-derived principle ajoene on aggregation and arachidonic acid metabolism in human blood platelets, 587
 - effect of genistein on platelet function are due to thromboxane receptor antagonism rather than inhibition of tyrosine kinase, 379
 - effect of 5-lipoxygenase and cyclooxygenase blockade on porcine haemodynamics during continuous infusion of platelet-activating factor, 549
 - effect of novel TXA_2 receptor antagonist S-1452 on antigen-induced bronchoconstriction and airway hyperresponsiveness in guinea-pigs, 343
 - effect of regular and enteric-coated aspirin on bleeding time thromboxane and prostacyclin, 515
 - effect of policosanol on cerebral ischaemia in Mongolian gerbils: role of prostacyclin and TXA_2 , 695
 - effects of starvation on the urinary contents of primary thromboxane and prostacyclin metabolites and a possible selenium-dependent role of prostacyclin in the renal handling of ketone bodies, 385
 - evening primrose oil and fish oil in non-insulin dependent diabetes, 569
 - importance of secondary TXA_2 release in mediating endothelin-1-induced bronchoconstriction and vasopressin in the guinea-pig, 261
 - increased TXA_2 production at primary tumour site in metastasizing squamous cell carcinoma of the larynx, 527
 - ingestion of marine oil reduces intravascular production of TXA_2 as measured by 11-dehydrothromboxane B_2 excretion, 305
 - IS-145 as a TXA_2 antagonist, 439
 - lipoproteins from normolipidaemic and dyslipidaemic subjects modify the TXA_2 generation by platelets in clotting human blood, 475
 - migraine and, 537
 - pharmacological model for airway hypersensitivity produced by propranolol and reserpine in guinea-pigs, 447
 - prostaglandin D_2 and endothelin-1 induce prostanoid production in capillary endothelium of human brain, 789
 - relationship between factors influencing Na^+ - K^+ -ATPase activity and eicosanoid production from ^{14}C -AA in spayed rat uteri, 273
 - sodium loading and renal prostaglandins in old rats, 815
 - thromboxane receptor antagonism and synthase inhibition in cerebral ischaemia, 211
 - Type A behaviour and alcohol consumption: effects on resting and post-exercise bleeding time thromboxane and prostacyclin metabolites, 143
 - U 46619 induces different blood pressure effects in male and female spontaneously hypertensive rats, 469
- Tiaprofenic acid inhibits the renal reabsorption of sulfate in rats, 503
- T-lymphocytes: fatty acids as antiinflammatory and immunomodulatory agents, 57
- Transforming growth factor- α and epidermal growth factor enhance the interleukin-1- and TNF-stimulated prostaglandin E_2 production and the interleukin-1 specific binding on amnion cells, 923
- Transfusion, blood, macrophage prostaglandin E_2 and oxidative responses to endotoxin during immunosuppression associated with anaesthesia and, 945
- Triacylglycerols, effect on erythrocyte deformability of, 351
- Trimethaphan- or prostaglandin E_1 -induced hypotension, epidural blood flow during, 873
- Tumour(s)/cancer
- cancer cachexia: interaction between eicosapentaenoic acid and inhibitory guanine nucleotide-regulatory protein, 105
 - effect of ascorbate on essential fatty acid composition in B16 melanoma cells, 771
 - effect of diethylnitrosamine on PGE and lipid peroxidation levels in rat's liver lung and renal tissue, 805
 - effects of interleukin-1 α on arachidonic acid metabolism in human osteosarcoma osteoblastic cells, 521
 - enhancement of antineoplastic effect and attenuation of sister chromatid exchanges by prostaglandin E_2 in Ehrlich ascites tumour cells treated with cyclophosphamide in vivo, 707
 - increased thromboxane A_2 production at primary tumour site in metastasizing squamous cell carcinoma of the larynx, 527
 - induction of apoptosis in blood cells from a patient with chronic myelogenous leukaemia by selective 5-lipoxygenase inhibitor SC41661A, 323
 - plant and marine n-3 fatty acids inhibit experimental metastasis of rat mammary adenocarcinoma cells, 309
 - prostacyclin as a potent anti-mutagen, 175

- role of free fatty acids in regulating the tissue availability and synthesis of sex steroids, 111
- role of leukotrienes in the regulation of proliferation of normal and leukaemic haemopoietic cells, 123
- Tumour necrosis factor (TNF)
 - epidermal growth factor and transforming growth factor- α enhance the interleukin-1- and TNF-stimulated prostaglandin E_2 production and the interleukin-1 specific binding on amnion cells, 923
- mononuclear cell-conditioned medium enhances thrombin-stimulated prostaglandin I_2 production by human umbilical vein endothelial cells in culture, 675
- protective effect of diclofenac sodium against endotoxin shock in anaesthetized pigs, 193
- Type A behaviour and alcohol consumption: effects on resting and post-exercise bleeding time thromboxane and prostacyclin metabolites, 143
- Tyrosine kinase
 - amplification of signals from growth factor receptors by fatty acids in mammary epithelial cells, 71
 - effects of genistein on platelet function are due to thromboxane receptor antagonism rather than inhibition of tyrosine kinase, 379

U

- Ulcers
 - effect of 16,16-dimethyl prostaglandin E_2 on proliferation of an intestinal goblet cell line and its synthesis and secretion of mucin glycoproteins, 423
 - indomethacin-induced gastrointestinal ulcers in rats: effects of dietary fatty acids and endotoxin, 229
 - leukotriene B_4 ω -hydrolase activity in polymorphonuclear leukocytes from patients with inflammatory bowel disease, 489
- Urinary tract
 - aqueous extracts of garlic inhibit prostaglandin synthesis in the ovine ureter, 855
 - inflammation: leukotriene B_4 generation by blood polymorphonuclear leukocytes after incubation in urine, 761
 - see also Kidney
- Urine
 - dietary supplementation with primrose oil or fish oil does not change urinary excretion of prostacyclin and thromboxane metabolites in pre-eclamptic women, 691
 - effect of leukotrienes on renal water excretion, 297
 - effects of starvation on the urinary contents of primary thromboxane and prostacyclin metabolites and a possible selenium-dependent role of prostacyclin in the renal handling of ketone bodies, 385
 - ingestion of marine oil reduces intravascular production of thromboxane A_2 as measured by 11-dehydrothromboxane B_2 excretion, 305
 - leukotriene B_4 generation by blood polymorphonuclear leukocytes after incubation in urine, 761
 - sodium loading and renal prostaglandins in old rats, 815
- Uterus
 - actions of interleukin-2 on amnion prostaglandin biosynthesis, 959
 - arachidonic acid and cell signalling in the ovary and placenta, 79
 - arachidonic acid release and inositol lipid metabolism in response to bradykinin and related peptides in human endometrial cells in vitro, 253
 - distribution of unsaturated fatty acids in phospholipids of arteries from nonpregnant pregnant and fetal sheep, 907
 - effect of chronic ethanol consumption on the spontaneous contractions prostaglandin production triglycerides and glucose metabolism of uterine strips isolated from pregnant rats and in embryos, 495
 - effects of guinea-pig endometrial proteins on phospholipase A_2 activity and prostaglandin synthesis, 219
 - identification of two different rate-limiting mechanisms controlling the release of NSAIDs from silastic polymeric devices, 391
 - possible cross-refractoriness between phospholipase A_2 and the calcium ionophore A23187 in the stimulation of uterine prostaglandin production, 327
 - relationship between factors influencing Na^+ - K^+ -ATPase activity and eicosanoid production from ^{14}C -AA in spayed rat uteri, 273

synthesis of 12-hydroxyeicosatetraenoic acid by human decidua and endometrium, 609

V

Vascular system

- anti-platelet and anti-thrombotic effects of prostacyclin analogue OP-41483- α -CD in experimental animals, 795
- comparative study of diets enriched with evening primrose blackcurrant borage or fungal oils on blood pressure and pressor responses in spontaneously hypertensive rats, 809
- comparison of the potency of various serotypes of *E. coli* lipopolysaccharides in stimulating prostaglandin I_2 production and suppressing ACE activity in cultured human umbilical vein endothelial cells, 955
- dietary supplementation with primrose oil or fish oil does not change urinary excretion of prostacyclin and thromboxane metabolites in pre-eclamptic women, 691
- distribution of unsaturated fatty acids in phospholipids of arteries from nonpregnant pregnant and fetal sheep, 907
- effect of endothelium removal on basal and muscarinic cholinergic stimulated rat mesenteric vascular bed prostanoid synthesis, 373
- effect of 5-lipoxygenase and cyclooxygenase blockade on porcine haemodynamics during continuous infusion of platelet-activating factor, 549
- effect of nordihydroguaiaretic acid on leukotriene C_4 and prostaglandin E_2 production following different reperfusion periods in rat brain after forebrain ischaemia correlated with morphological changes, 633
- effect of policosanol on cerebral ischaemia in Mongolian gerbils: role of prostacyclin and thromboxane A_2 , 695
- effect of prostacyclin analogue OP-41483 on normothermic liver ischaemia and reperfusion injury in rats, 417
- effect of prostaglandin E_1 on renal function after cardiac surgery involving cardiopulmonary bypass, 627
- effect of regular and enteric-coated aspirin on bleeding time thromboxane and prostacyclin, 515
- effect of triacylglycerols on erythrocyte deformability, 351
- eicosapentaenoic acid abolishes the proatherogenic effects of cholesterol: effects on migration of bovine smooth muscle and endothelial cells in vitro, 463
- eicosapentaenoic acid and atherosclerosis, 337
- endotoxin shock has differential effects on renal and splanchnic eicosanoid synthesis, 509
- epidural blood flow during prostaglandin E_1 - or trimethaphan-induced hypotension, 873
- exaggerated splanchnic prostaglandin I_2 release following acute haemorrhage is due to new protein synthesis, 207
- hyperoxia decreases cyclooxygenase activity in endothelial cells, 455
- importance of secondary thromboxane A_2 release in mediating endothelin-1-induced bronchoconstriction and vasopressin in the guinea-pig, 261
- ingestion of marine oil reduces intravascular production of thromboxane A_2 as measured by 11-dehydrothromboxane B_2 excretion, 305
- lipoproteins from normolipidaemic and dyslipidaemic subjects modify the thromboxane A_2 generation by platelets in clotting human blood, 475
- lupus anticoagulant and eicosanoids, 483
- macrophage prostaglandin E_2 and oxidative responses to endotoxin during immunosuppression associated with anaesthesia and transfusion, 945
- mononuclear cell-conditioned medium enhances thrombin-stimulated prostaglandin I_2 production by human umbilical vein endothelial cells in culture, 675
- pharmacokinetics and pharmacodynamics of the prostacyclin analogue 15AU81 in the anaesthetized beagle dog, 159
- prostacyclin regulates splanchnic blood flow during early haemorrhage/reperfusion injury, 401
- prostacyclin release in experimental diabetes: effects of evening primrose oil, 699
- prostaglandin biosynthesis in the microcirculation: regulation by endothelial and non-endothelial factors, 723
- prostaglandin D_2 and endothelin-1 induce prostanoid production in capillary endothelium of human brain, 789

prostaglandin I_2 production and angiotensin converting enzyme activity in cultured porcine pulmonary artery endothelial cells treated with paraquat, 291
prostaglandins and portal hypertension, 203
protective effect of diclofenac sodium against endotoxic shock in anaesthetized pigs, 193
radioimmunoassay for the prostacyclin analogue 15AU81: a preliminary pharmacokinetics study in the dog, 167
thromboxane receptor antagonism and synthase inhibition in cerebral ischaemia, 211
treatment of patients with peripheral arterial occlusive disease with intravenous iloprost and prostaglandin E_2 , 573

U 46619 induces different blood pressure effects in male and female spontaneously hypertensive rats, 469
